Television Enterprises S.A. (TVE) is one of the most successful independent television production companies and television studios in Greece. TVE has a reputation for producing innovative, high quality and popular programs for the Greek and global markets. Television Enterprises were established in 1975, and were the first color TV studios in Greece. TVE's extensive catalogue includes a broad range of titles and genres: lifestyle, talk shows, game shows, crime series, comedies and dramas, in addition to documentaries and films. Our critically-acclaimed programs are produced for major television networks in Greece and abroad, and have attracted both high audience ratings as well as many prestigious awards.

Freeband.TV is a business to business IPTV platform specializing in content management. Our core business is affiliate sales and we currently represent over fifty television channels with a reach to an extensive and diverse client base including network operators and multi-platforms worldwide. At the World Content Market we will be looking for suitable content for our client base. In particular, we need linear programming for our television channels, and non-linear programming for our new media clients i.e. VOD, OTT On Demand and web syndication content. We would also be interested in talking to companies and/or platforms requiring content sourcing services.

## United States

New Films International (NFI) is a full-service production and distribution company servicing the worldwide marketplace. New Films Cinema (NFC) is the U.S. theatrical release entity. Acquiring, distributing, and marketing feature films and television series, NFC offers a wide variety of genres with A-list talent and a film library which is home to hundreds of titles. As a company on the rise, NFI also produces and co-finances a substantial amount of their own content. The company was founded in 1996 by Nesim Hason, a successful foreign markets distributor who established himself within the film industry in multiple capacities starting in 1980. Nesim has been committed to bridging the distance between the United States and the rest of the world by consistently striving to blend both foreign and American cultures, introducing American films to the foreign marketplace and distributing commercial projects which appeal to the movie-goer.
